

CRYE PRECISION™

2014 PRODUCT GUIDE

SERVING THOSE WHO PROTECT FREEDOM™

FOREWORD

We've been very busy over the past year and we're pleased to showcase some of what we've been up to throughout the following pages. We've taken personal protection for law enforcement officers to the next level with our new HitCoat™ and we've introduced entirely new product categories such as the SIX12™ shotgun. We've also developed a host of new products in our existing categories such as our innovative new one-piece garments, new outerwear options, new load carriage products, and our new AirFrame ATX™.

Our focus is always on those who safeguard our freedoms both domestically and against foreign enemies. Our mission is to better equip them to do their work. Freedom comes first for our customers and it comes first for us as well. We support our government as chartered, one whose primary task is to safeguard our individual liberties. But safeguarding our freedoms is becoming more and more complicated as we struggle not only against increasingly elusive external threats but also against an unprecedented level of domestic overreach—sometimes by the very groups chartered with defending our liberties, and often under the pretense of doing so. In 2013 we learned several facts that should alarm any citizen regardless of political view. Among other things, we learned that none of our private domestic phone communications or emails are really private and that several federal agencies were caught abusing their authority by targeting domestic political enemies.

If we are willing to sell our precious freedom for something as cheap as a politician's hollow promise of increased security, or if we give up our liberties bit by bit to appease hysterical demands for "more safety" well then, we deserve our fate. But I for one am not interested in giving up any more of my freedoms. I want to live in a country that does not betray all those men and women who have sacrificed everything to protect what this nation stands for. Defending freedom is not just a task for the military; it's every citizen's responsibility. Here we pledge to continue our commitment to those who protect liberty and we re-affirm our promise to oppose those who seek to diminish and destroy it. The best weapon against those who seek to unjustly confine us is simply to refuse to go along with their nonsense.

Freedom doesn't offer any guarantees, freedom doesn't promise any free stuff, and freedom doesn't give everybody a ribbon for participating. Like life itself, freedom is inherently risky—but it's always worth it. We all need to defend our freedoms to the fullest extent of our abilities. It's the least we owe the many thousands of Americans who've given their lives to secure those rights for us.

Caleb Crye

G3 COMBAT PANT™

FEATURES

1. Dedicated knife/light holder that still allows pocket access
2. Simple kneepad height adjuster located in front thigh pocket
3. Designed for use with removable AIRFLEX™ COMBAT KNEE PADS
4. Unique low-profile waist adjust system
5. Each cargo pocket conceals water bottle/magazine stabilizer
6. Built-in flap covers kneecap opening when not using knee pads

DESIGN

Designed as a no-compromise assault uniform, these pants are aggressively cut for maximum mobility. These combat-proven pants are sized in 2" waist increments and multiple lengths for a perfect fit. Features a unique padded waistband and hi-mobility stretch panels at the knee and lower back. 10 pockets. Designed for use with our patented removable AIRFLEX™ COMBAT KNEE PADS (sold separately). Base fabric is Mil-Spec 50/50 NYCO ripstop with durable a 4-way stretch-woven accents. Zip fly with Velcro® closure. Unique low-profile adjustable waist feature. Made in the US from US materials.

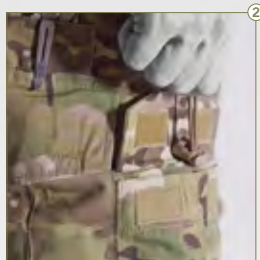

AVAILABLE SIZES

28-46 waist in short, regular, long, and extra long lengths.

AVAILABLE COLORS

PRODUCT SHOWN WITH AIRFLEX™ COMBAT KNEE PADS. (SOLD SEPARATELY)

G3 COMBAT SHIRT™

FEATURES

1. Comfort placket behind zipper
2. Eye-pro holder and pen pocket
3. Double layer bicep pocket
4. Flexible Velcro® configuration on bicep pocket
5. Streamlined elbow pad configuration designed for use with our removable AIRFLEX™ ELBOW PADS or our legacy FIELD ELBOW PADS (sold separately)

DESIGN

The design that started a movement. The G3 COMBAT SHIRT™ is a combat-specific garment specifically designed to be worn under body armor. It keeps you cool with wicking, lightweight, high-performance, flame-resistant DRIFIRE® torso fabric and reinforced Mil-Spec 50/50 NYCO ripstop sleeves. Designed for use with our removable AIRFLEX™ ELBOW PADS or our legacy FIELD ELBOW PADS (sold separately). The G3 COMBAT SHIRT™ features a zip collar that allows easy donning and doffing while keeping slings, straps, and brass off your neck. Made in the US from US materials.

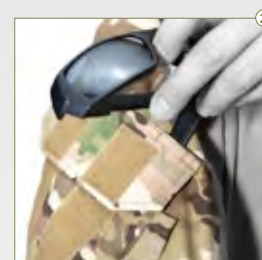

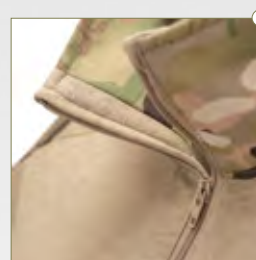

AVAILABLE SIZES

XS-3XL in short, regular, long, and extra long lengths.

COMING SPRING 2014

LE01 PANT™

PRODUCT SHOWN WITH AIRFLEX™ COMBAT KNEE PADS. (SOLD SEPARATELY)

FEATURES

1. Designed for use with removable AIRFLEX™ COMBAT KNEE PADS
2. Sharp, uncluttered appearance
3. Stress relief crotch gusseting
4. Articulated leg for added mobility
5. Large front thigh pockets accessible in vehicles

DESIGN

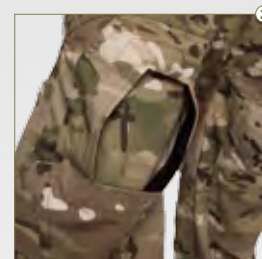

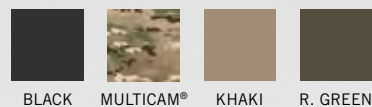

Offering both extreme tactical functionality and a refined appearance, the new LE01 PANT™ strikes an ideal balance of professional image and utility while also being more economical than our full-featured COMBAT PANT™.

Ideal for LE units that want increased functionality but who need to maintain a more traditional uniform appearance. Flush simple pocket details and refined tailoring make the LE01 PANT™ blend well into a duty uniform profile. Made in the US from US materials.

AVAILABLE SIZES

28-46 waist in short, regular, long, and extra long lengths.

COMING SUMMER 2014

FIELDSUIT™

FEATURES

1. Uses our patent-pending mobility zipper design
2. Internal waist adjuster
3. Zipper closure cargo pockets
4. Reinforced knee accepts our AIRFLEX™ FIELD KNEEPADS
5. Stress relief crotch gusseting
6. Articulated leg for added mobility
7. Reinforced seat
8. Flush chest pockets for use with body armor

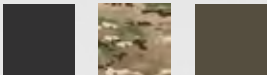

DESIGN

Utilizing a new patent-pending design we have solved the age-old sizing dilemma of one-piece garments. Traditional one-piece garments either gave you a wedgie when in prone or they had a very low crotch that interfered with normal mobility. In fact they usually did both. We have solved this problem by designing a novel entry system that allows the entire front and back of the garment to stretch as needed. The FIELDSUIT™ fits like a shirt and pants no matter how you move. No more wedgies, instead a highly fit and mobile garment for use when the simplicity and convenience of a one-piece suit is desired. Made from lightweight Flame Resistance (FR) woven fabric that meets the US Army's FRACU spec and offers durability far superior to most other FR fabrics. Made in the US from US materials.

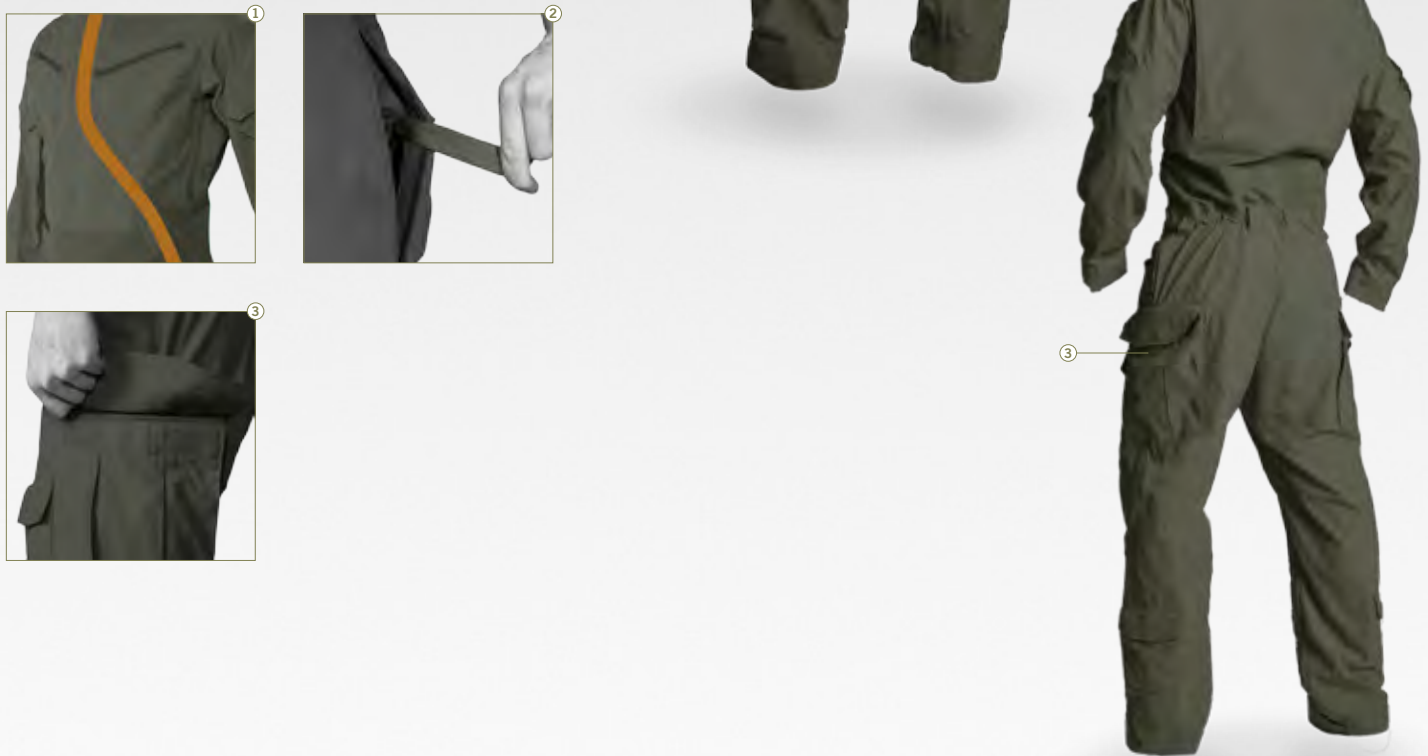

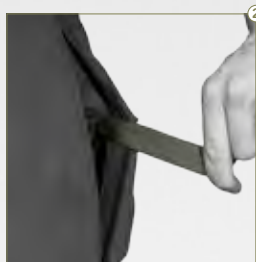

AVAILABLE SIZES

32-52 chest (in 2" increments) in short, regular, long, and extra long.

AVAILABLE COLORS

BLACK MULTICAM® R. GREEN

COMING SUMMER 2014

COMBATSUIT™

FEATURES

1. Uses our patented-pending mobility zipper design
2. Internal waist adjuster
3. Reinforced knee accepts our AIRFLEX™ COMBAT KNEEPADS
4. Zipper closure cargo pockets
5. Patented COMBAT SHIRT™ format for use with body armor
6. Stress relief crotch gusseting
7. Stretch knee panels for added mobility
8. Reinforced seat

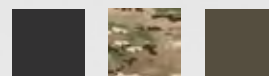

DESIGN

Similar in functionality to our **FIELDSUIT™**, the **COMBATSUIT™** utilizes our new patent-pending design to solve the age-old sizing dilemma of one-piece garments. Traditional one-piece garments either gave you a wedgie when in prone or they had a very low crotch that interfered with normal mobility. We have solved this problem by designing a novel entry system that allows the entire front and back of the garment to stretch as needed. The **COMBATSUIT™** fits like a shirt and pants no matter how you move. No more wedgies, instead a highly fit and mobile garment for use when the simplicity and convenience of a one-piece suit is desired while wearing body armor. Fabrics meet the US Army's FRACU spec for flame resistance and offer durability far superior to most other FR fabrics. Made in the US from US materials.

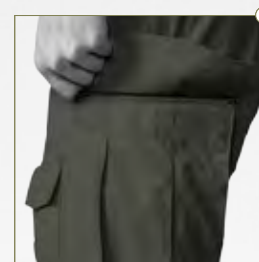

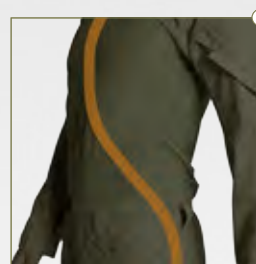

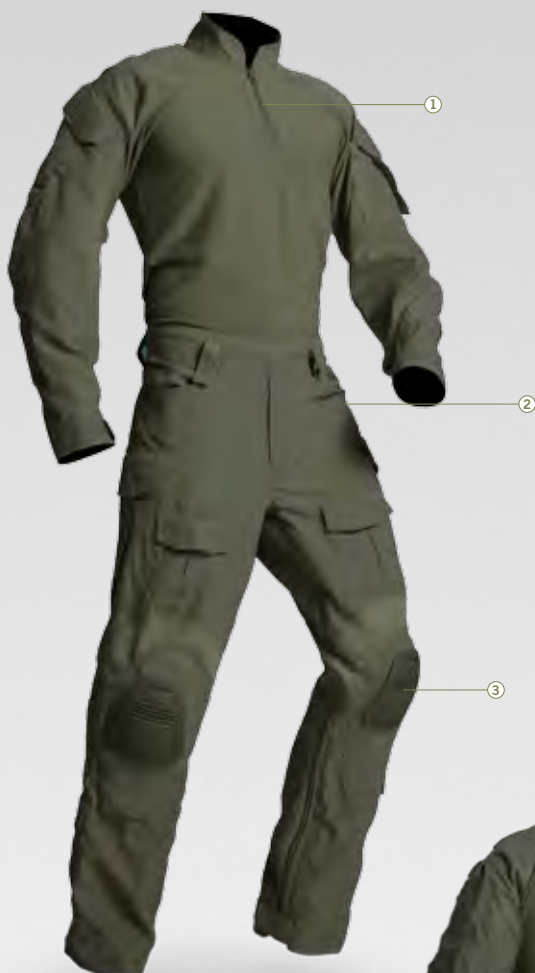

AVAILABLE SIZES

COMING SPRING 2014

LWF JACKET™

FEATURES

1. Zip closure hand pockets
2. Interior chest pocket
3. Integrated thumb loops
4. Hem draw cord
5. Breathable mid-weight stretch fleece material
6. Tailored for extreme mobility without binding

DESIGN

A versatile layer that works well as a standalone jacket or as breathable insulation under a shell. Comfortable in a wide temperate range. Made from a single layer of a custom fleece fabric with a “slick” outer surface that sheds water and dirt better than typical fleece. This fabric is so quiet and stretchy you almost forget you’re wearing it. Sharp tailored lines give this jacket a clean and distinct appearance. Athletic fit for layering under other garments, if you prefer a loose fit, choose one size larger. Made in the US from US materials.

COMING SPRING 2014

LOFT JACKET™

FEATURES

1. Helmet-sized single layer hood stows in collar
2. Jacket stows into built-in pocket forming a handy pillow
3. 2 exterior zip pockets and 3 large interior zip pockets
4. Stretch cuffs with integrated thumb loops
5. Breathable stretch fleece side panels
6. Tailored for extreme mobility without binding
7. Nano STX™ treatment sheds rain and snow
8. ClimaShield® insulation for extreme performance and packability

DESIGN

A great balance between an outer garment and an insulation layer. Our **LOFT JACKET™** offers the right amount of functionality to be an ideal solution for most cold days and nights while remaining light and minimal enough to be worn comfortably under nearly any shell (such as our **FIELD SHELL™**) as conditions worsen. The outer fabric is Nano STX™ treated to shed water and snow. Midweight ClimaShield® insulation is for versatility and packability. The fit is athletic for wear under shells, if you prefer a loose fit, choose one size larger. Made in the US from US materials.

COMING SPRING 2014

FIELD SHELL 2™

FEATURES

1. Soft-lined collar and zipper placket for added comfort
2. Low-profile bicep pockets
3. Inner stretch cuff baffles keep the wind out
4. Extra-long armor-friendly pit zips
5. Patterned for extreme mobility without binding
6. Base fabric is an extremely weather resistant and lightweight 4-way stretch Nano STX™ laminate with wicking knit interior face
7. Versatile intermediate body length
8. Drawcord hem with hidden hardware

DESIGN

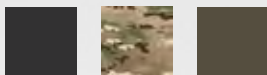

The **FIELD SHELL™ 2** is an update of our original **FIELD SHELL™** design. It's a versatile and refined soft shell jacket that offers significant utility in almost any weather. Our lightweight 4-way stretch laminate with Nano STX™ creates a highly breathable and extremely wind/rain resistant outer garment. Packability, clean lines, and refined features are the hallmarks of this garment. From the hidden hem adjuster to the discreet zip mesh pockets that double as internal storage, this design remains uncluttered while still being multifunctional. Unique, armor-friendly extra-long pit zips allow easier access and more ventilation than traditional vents when wearing armor. Made in the US from US materials.

NOTE: The **FIELD SHELL™ 2** has a more athletic fit than the original **FIELD SHELL™** so if you prefer a loose fit or want the same fit as the original **FIELD SHELL™**, go with one size larger.

WINDLINER™

FEATURES

1. Folds and stores into single mesh-lined cargo pocket on sleeve
2. Stirrup thumb cuffs
3. Stowable hood
4. Featherweight, high-performance Nano STX™ treated fabric
5. Elastic-bound hem
6. Soft-lined collar and zipper placket for added comfort

DESIGN

Extremely light and packable jacket that offers outstanding wind and weather resistance in a handy featherweight package. The WINDLINER™ folds into its own single mesh-lined cargo pocket. Perfect for packing light and being prepared for unpredictable weather conditions. Made in the US from US materials.

HALFJAK™ INSULATED

FEATURES

1. Zip-up front for quick and easy donning and doffing
2. Can be stuffed into internal pocket to create a pillow
3. Can be stowed and mounted to vest as a hand warmer
4. Packs into stuff sack that mounts via MOLLE, belt, or Velcro®
5. Various mounting options via Velcro® tab or webbing loops
6. Nano STX™ treatment sheds rain and snow

DESIGN

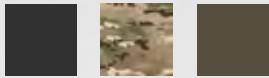

The HALFJAK™ is a new minimalist concept in combat-specific weather protection. It helps you stay warm and dry while avoiding overheating during movement. No need to stop and remove kit to layer up or down. No interference with your gear and no delays while you're on the move. Instantly transition back and forth between highly-aerobic and stationary activities without getting sweaty or cold.

The HALFJAK™ INSULATED version is our take on combat-specific cold/wet gear. Made with ClimaShield™ loft material, it is extremely light, packable, and warm. The exterior fabric is treated with a Nano STX™ finish that keeps the water out. Made in the US from US materials.

COMPACT ASSAULT GHILLIE™

FEATURES

1. Packs into baseball-sized pouch for compact stowage.
2. Laser-cut 3D shapes
3. Removable dual-layer cape

DESIGN

Snipers aren't the only people on the battlefield who benefit from concealment. The **COMPACT ASSAULT GHILLIE™** is a lightweight, low-bulk concept in assaulter concealment. It's light and small enough to carry with you or wear full-time. Laser-cut 3D shapes physically break up the most visible human outline—the head and shoulders. Removable rear dual-layer panel folds forward to conceal a long gun or binoculars. The open cut and featherweight materials allow massive airflow and prevent overheating. Stuff sack mounts to MOLLE or a belt. Made in the US from US materials.

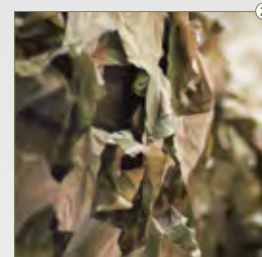

AVAILABLE SIZES

MD–XL

AVAILABLE COLOR

MULTICAM®

SKULLCAP™

FEATURES

1. Eyelets for eye protection
2. Polyester/Spandex blend printed fleece
3. Dual-layer earband for additional warmth

DESIGN

The SKULLCAP™ is a fitted, 3-panel cap, cut for maximum coverage and situational awareness. It keeps your ears warm and doesn't block your peripheral vision. Made from a custom fabric that allows MultiCam® to be printed directly onto the fleece, this mid-weight polyester/Spandex blend retains warmth while stretching to comfortably fit most heads. Light enough to fit under a helmet but warm enough to be worn alone. Made in the US from US materials.

ARMOR + EQUIPMENT

COMING FALL 2014

HITCOAT™

FEATURES

1. Neck, trap, shoulder, bicep, and forearm protection
2. NIJ IIIA compliant armor
3. Stretch panels for extreme mobility
4. Zip front for rapid and simple don/doff
5. Full zip sleeves for rapid don/doff
6. Ventilation throughout
7. Projects a distinct authoritative presence
8. Provides new opportunities for role-specific armor profiles

DESIGN

We're very proud to introduce the **HITCOAT™** an armor system that takes things to the next level. Designed to offer dramatically more ballistic coverage than traditional vests, the **HITCOAT™** provides officers conducting high risk operations significantly more protection without compromising their agility and mobility. Quick and easy don/doff greatly simplifies gearing up for a hit. Built with our proprietary construction technique, all the ballistic panels are shaped to mold around the wearer's body. This makes the system feel and move like a natural extension of the body. The patent-pending **HITCOAT™** is comprised of 2 main components: the **HITCOAT VEST™** and the **HITCOAT SLEEVES™**. The vest can be separated and worn alone. Made in the US from US materials.

HITCOAT™ VEST

FEATURES

- NIJ IIIA compliant armor
- Zip front for rapid and simple don/doff
- Stretch panels for extreme mobility
- Low-profile adjustment features
- Fits very wide size range
- Adjustment system provides feel of custom fit

DESIGN

The unique don/doff system of the **HITCOAT VEST™** makes gearing up fast and simple. It accepts nearly any matched size rifle plate set. Integrated side pockets can hold side plates or extra magazines. The novel adjustment system provides the feel and stability of a custom fit while still accommodating a very wide size range. Clean low-profile shoulder adjustment features provide a sharp visual silhouette. The **HITCOAT VEST™** is the vest portion of the **HITCOAT™** offered as a standalone product. Made in the US from US materials.

HITCOAT™ SLEEVES

FEATURES

- Neck, trap, shoulder, bicep, and forearm coverage
- NIJ IIIA compliant armor
- Attaches to nearly any protective tactical vest
- Stretch panels for extreme mobility
- Full zip sleeves for rapid don/doff
- Ventilation throughout
- Projects a distinct authoritative presence
- Provides new opportunities for role-specific armor profiles

DESIGN

HITCOAT SLEEVES™ is the sleeve portion of the HITCOAT™ offered as a standalone product. The HITCOAT SLEEVES™ can be integrated with the HITCOAT VEST™ or nearly any other tactical protective vest. The HITCOAT SLEEVES™ provide new options for role-specific protection. Teams working in high risk operational environments now have the option to rapidly adjust their armor to the threat. The HITCOAT SLEEVES™ come with an attachment kit that provides for connection to other vests via MOLLE webbing or Velcro®. In the same way teams employ shields as needed they can now apply expanded personal ballistic coverage when dealing with unique roles or scenarios. The HITCOAT SLEEVES™ are the top portion of the HITCOAT™ offered as a standalone product. Made in the US from US materials.

ADAPTIVE VEST SYSTEM (AVS)[™]

FEATURES

- Highly configurable to meet mission needs
- Easily customizable to suit user preferences
- Continually expanding catalog of components
- Custom lightweight hardware

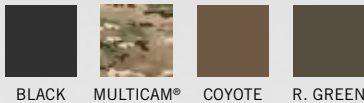

DESIGN

The AVS[™] is a revolutionary system that quickly configures as anything from a low-vis rig to a fully armored load-bearing vest... and everything in between. Changing calibers? Simply switch out your front mag panel. Switching load-outs? Quickly slide off your modular pouches without unweaving them. Shifting threats? Just add or remove armor panels without having to modify your gear load-out. Varying missions? Configure it as a load-bearing vest for recon work and switch right back to a fully-armored configuration with ease. Attach packs, zip-on rear panels, STKSS[™] LOAD SUPPORTS, and many other accessories – the options are infinite. Made in the US from US materials.

- Includes optional camo plate covers

DESIGN

AIRLITE™ PLATE CARRIERS are the lightest MOLLE-compatible plate carriers in the world. Although they're ridiculously light, they're still extremely durable and strong.

EK01™

We are proud to offer the EK01™ as the definition of the extreme end of the lightweight spectrum. Minimal weight, minimal bulk, minimal complexity. AirLite™ is the original and best ultra-light carrier system.

EK02™

The EK02™ shares the same base design as our ultralight EK01™ with the addition of two integrated 6" wide side plate pockets.

EK03™

The EK03™ supports swimmer-cut plates, as opposed to SAPI-cut plates of the EK01™. The base design, however, remains the same.

EK04™

The EK04™ shares the same base design as our ultralight EK03™ with the addition of two integrated 6" wide side plate pockets.

AIRLITE™ CHEST RIG

FEATURES

- Featherlight, weighing only 4 oz.
- Ultra low profile
- Easily adjustable
- Fits all AirLite™ plate carriers as well as others including the LV-MBAV and LV-RBAV

DESIGN

The AIRLITE™ CHEST RIG is made with the same revolutionary material used in all our AirLite™ plate carriers and accessories. This means you get the least weight with the maximum durability and strength. The AIRLITE™ CHEST RIG integrates seamlessly into all our AirLite™ carriers and is also compatible with our other plate carriers such as the LV-MBAV and LV-RBAV. Made in the US from US materials.

AIRLITE™ CHEST RIG ATTACHED TO
PLATE CARRIER

JUMPABLE PLATE CARRIER (JPC)[™]

FEATURES

1. Integrated triple mag pouch on front of carrier
2. Low-profile cummerbund attachment that provides maximum adjustability and allows for chest expansion
3. Built-in admin pouch in upper portion of front carrier (holds pistol mags, chem lights, maps)
4. High performance stretch material that allows for different thickness of plates
5. Padded ventilation on interior panels of vest for added comfort
6. Quick-attach side loops for add-on coverage
7. Durable anti-slip shoulder straps
8. Groin protection attachment point
9. Single strap side closure option for ultra-lightweight configurations

DESIGN

The **JUMPABLE PLATE CARRIER[™] (JPC)** is a lightweight and minimal vest designed for maximum mobility, weight savings, and packability. At just over one pound for the entire carrier, the **JPC[™]** offers a variety of configuration options to suit an operator's needs in terms of load carriage and comfort. It features our **SKELETAL[™] CUMMERBUND SYSTEM** with our patent-pending integrated attachment system that allows pouches to be mounted on both the inside and outside of the cummerbund, shedding unnecessary weight and bulk while improving ventilation. It also features integrated admin and magazine pouches on the front of the carrier. Sizes are based on the size of the ballistic plate. For example, a large plate will fit best in a large **JPC[™]**. Made in the US from US materials.

CAGE PLATE CARRIER (CPC)[™]

FEATURES

- Lightweight (3-5 lbs. depending on size)
- Accepts optional side armor inserts
- Integrated mag, radio, and admin pouches
- All parts are interchangeable with **CAGE ARMOR CHASSIS[™]** components

DESIGN

The **CAGE PLATE CARRIER (CPC)[™]** offers unsurpassed comfort and load support in a low profile plate carrier configuration. It is releasable and accepts soft and hard armor inserts (sold separately). When paired with the **LOW PROFILE BLAST BELT[™]**, it becomes an extremely efficient and versatile armor and load carriage system. Designed from the ground up to take full advantage of our revolutionary **StKSS[™]** system that transfers the vest weight to the wearer's hips. The **CPC[™]** built-in cummerbund is designed to accept our soft armor panels and 6"x6" plates. **CPC[™]** plate bags (sold separately) stretch to accommodate different plate thicknesses and have integrated magazine and admin pouches. Made in the US from US materials.

AVAILABLE SIZES

CAGE ARMOR CHASSIS™

FEATURES

- Dual emergency doff
- Accepts 6"x6" side plates and shoulder strap plates
- Front opening access
- Uninterrupted side coverage (no side seam)
- Meets or exceeds IBA & USASOC frag and handgun requirements

DESIGN

CAGE (CRYE ASSAULT GEAR) ARMOR CHASSIS™: Unlike any other armor vest, the CAGE ARMOR CHASSIS™ is the result of years of design and engineering. Made by an entirely new production process, the articulated chassis provides the most comfortable and stable armor/load-carriage platform to date. The design provides passive cooling via large air channels that run under the armor. Designed for use with our armored HIGH BACK BLAST BELT™, the CAGE ARMOR CHASSIS™ is fully modular and highly adjustable. Designed to be worn snug to the body like sports equipment. Features include: dual emergency doff, accepts 6"x6" side plates and shoulder strap plates, front opening access, uninterrupted side coverage (no side seam), meets or exceeds IBA & USASOC frag and handgun requirements. Made in the US from US materials.

ZIP-ON PANELS

MOLLE ZIP-ON PANEL

POUCH ZIP-ON PANEL

PACK ZIP-ON PANEL

MOLLE ZIP-ON PANEL

A quick attach/detach system to set up dedicated load-outs. Zips to rear platebag. Rig up a few different panels for different types of work and switch quickly between them. Features a built-in hydration/bolt cutter pocket. Corresponds with platebag sizing. Compatible with CHASSIS™, CPC™, and AVS™.

POUCH ZIP-ON PANEL

A dedicated pouch panel that zips to rear plate. Holds multiple 37/40mm grenades/bangs across the top, a GP pouch in the middle, and MOLLE webbing on the bottom. Use multiple panels for different types of work and switch quickly between them. Features a built-in hydration/bolt cutter pocket. Corresponds with platebag sizing. Compatible with CHASSIS™, CPC™, and AVS™.

PACK ZIP-ON PANEL

Simple, versatile pack that zips to rear plate and stretches to hold essential supplies. Several handy internal and external pockets. Streamlined design is not too big and not too small. Features a built-in expandable hydration/bolt cutter pocket. Corresponds with platebag sizing. Compatible with CHASSIS™, CPC™, and AVS™.

MODULAR RIGGER'S BELT (MRB)[™]

FEATURES

1. MOLLE sleeve has opening for drop-leg holster integration.
2. Inner LoopLock[™] belt functions on its own as a great low profile pants belt (no bulky hardware)
3. Multiple pistol mounting options (on inner LoopLock[™] layer, on exterior MOLLE sleeve, and on main belt)
4. Main belt can be replaced with alternate load-rated rigger's belts.
5. Ergonomically-shaped for long wearing comfort
6. Extremely light and low bulk

DESIGN

Our **MODULAR RIGGER'S BELT (MRB)[™]** is a single, lightweight belt system that carries your gear and holds up your pants. Features our new LoopLock[™] inner belt layer that passes through pants belt loops, keeping the **MRB[™]** oriented and stable. Made in the US from US materials.

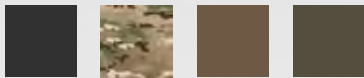

There are two main ways to configure the system to suit any operational need:

1. Keep the inner LoopLock[™] layer attached to belt for most secure and stable setup.
2. Wear inner LoopLock[™] layer as a separate low-profile pants belt for added versatility.

BLAST HIGH BACK BELT™

DESIGN

Combining the benefits of lower back support with flexible armor protection, the **BLAST HIGH BACK BELT™** is an extremely stable and comfortable load carriage platform. It allows you to carry holsters, pouches, and thigh rigs securely and comfortably. It is designed to work in combination with the **CAGE ARMOR CHASSIS™** or other operator-cut vests. Accepts rifle protective upgrade plates. Meets or exceeds IBA & USASOC frag and handgun requirements. Made in the US from US materials.

The **BLAST HIGH BACK BELT™** is compatible with **CRYE PRECISION™ SUSPENDERS** and **SIDE SLEEVES**.

BLAST LOW PROFILE BELT™

DESIGN

Similar to the original **BLAST™ HIGH BACK BELT**, but cut in a lower profile, the **BLAST™ LOW PROFILE BELT** is also an extremely stable and comfortable load carriage platform. It is designed to work in combination with almost any armor vest. This belt is designed to integrate seamlessly with **STKSS™**, our revolutionary load support system that transfers vest-borne weight to the hips. Removable soft armor insert exceeds IBA and USASOC frag and handgun requirements. Also accepts our rifle protective upgrade plates. Made in the US from US materials.

The **BLAST™ LOW PROFILE BELT** is compatible with **CRYE PRECISION™ SUSPENDERS**.

StKSS™

FEATURES

- Extremely simple and lightweight
- Highly flexible and easy to use
- Very little impact on range of motion
- Does not limit vest's emergency-release capability
- Available for all sizes of CPC™ and CHASSIS™
- Kit includes two lengths for perfect fit

DESIGN

Nothing short of revolutionary, StKSS™ (STRUCTURAL KINETIC SUPPORT SYSTEM) allows a wearer to selectively transfer some or all of the weight of their armor vest to their hips. StKSS™ allows the wearer's shoulders and spinal column to be completely isolated from the weight being carried. Instead, the weight is transferred directly to the pelvis (hip bone) and legs. The effect is unmistakable, and the benefit is undeniable to those familiar with what wearing a 60+ lb. vest for months on end does to your lower back. Made in the US from US materials.

ARMOR COMPONENTS AND ACCESSORIES

1 CONTOURED GROIN PANEL™
 3-dimensionally formed for increased coverage. Unique attachment allows weight to be carried by pants not vest. Exceeds IBA and USASOC frag and handgun requirements.

①

2 LOWER ABDOMEN PROTECTION™ (LAP) PANEL
 Our LAP Panel™ adds more soft armor coverage and load carriage area. It also incorporates two pockets for rifle protective upgrade plates. It is compatible with most military and commercial body armor vests currently in use. Exceeds IBA and USASOC frag and handgun requirements.

②

3 GROIN PROTECTION SYSTEM™ (GPS)
 The GPS™ provides groin, peritoneal, femoral, and lower back protection without restricting mobility. Peritoneal protection stores flat until needed. Sizes XS-2XL.

③

4 PLATE BACKING SOFT ARMOR INSERT
 Soft armor panel for use with non-standalone plates. Exceeds IBA and USASOC frag and handgun requirements. Sizes SM-XL.

④

5 CAGE PLATE CARRIER™ SOFT ARMOR INSERT (SIZE 1)
 10.5"x6" soft armor panel for sides of CPC™. Exceeds IBA and USASOC frag and handgun requirements.

⑤

6 CAGE PLATE CARRIER™ SOFT ARMOR INSERT (SIZE 2)
 11.5"x6" soft armor panels for sides of CPC™. Exceeds IBA and USASOC frag and handgun requirements.

Soft armor panel for BLAST™ Low Profile Belt. Exceeds IBA and USASOC frag and handgun requirements. Sizes SM–XL.
- 10 **SIDE-PULL MAG POUCH**
A perfect way to carry and access two mags. Compatible with all of our plate bags.
- 11 **STRETCH MAG POUCH**
A lightweight magazine holder that lets you carry and reach two mags on your side. Top or bottom pull. CPC™ compatible.
- 12 **ROLL-UP DUMP POUCH**
A lightweight roll-up dump pouch that attaches onto the Velcro® of a plate bag, vest, or belt.

COMING WINTER 2014

SIX12™

SIX12 12.5" BARREL

SIX12 18" BARREL

SIX12 WITH STOCK AND 22" BARREL

FEATURES

- Compact and attachable to AR rail platforms
- Removable 6-round cylindrical magazines
- Accepts 12-gauge shells up to 3"
- Interchangeable barrel feature
- Double-action semiautomatic
- Allows new options for force escalation
- Ideal for breaching, home defense, and law enforcement uses

DESIGN

We are very pleased to introduce the SIX12™. Originally designed to provide a safer, faster and more efficient means of breaching doors, the SIX12™ is a 6-round, 12-gauge, cylinder-fed shotgun that can be mounted to most AR platforms. Its unique design puts the weight of the gun much closer to the shooter making it much easier to carry and use. The SIX12™ is extremely compact—critical when mounting it under an AR. Although the SIX12™ was originally developed to improve breaching, its modular design and the ever expanding variety of 12-gauge rounds make it ideal for many home defense and law enforcement uses. Made in the US from US materials. US and foreign patents pending.

- The SIX12™ is offered as a standalone shoulder fired system that does not require any NFA paperwork to purchase. This model comes with everything needed to mount to an AR.
- A shorter barrel, non-standalone model is available, which requires NFA taxes and paperwork.
- Individual shorter barrels are available for purchase as well.

NOTE: Depending on overall length, NFA barrel regulations may apply.

REMINDER

Obviously, firearms are inherently dangerous. Users are responsible for complying with federal and local laws.

AVAILABLE ACCESSORIES

- 22" overall length barrel
- 18" overall length barrel
- 12.5" overall length barrel
- Horizontal grip
- Vertical grip
- Color-coded cylinders
- Standalone stock kit
- Custom carrying case

GUNCLIP™

WITH LIGHT AND SUPPRESSOR

ATTACHED TO MOLLE

ATTACHED TO BELT

FEATURES

- Quickly opens by unsnapping the retention tab while reaching for handgun
- Retention flap immediately releases and weapon can be instantly detached
- Mount is compatible with all MOLLE platforms and belts up to 2" tall
- Single adjustment sets rotation angle, (360°)
- Allows use of nearly any light, suppressor, and/or sight
- Simple, one-handed operation to re-secure handgun

DESIGN

The **GUNCLIP™**: an entirely new approach to carrying and deploying a handgun. Any light, any suppressor, any platform, any orientation, any situation. Even if you're in a cramped vehicle or wearing an armored vest with a gun on your belt, the **GUNCLIP™** allows you to deploy your handgun and get on target fast. Its small size means minimal weight and space is taken up when not in use.

A single adjustment sets rotation (360°) and securely clamps the mount to almost any platform (belt or MOLLE). Fits belts up to 2" tall. Currently available for all GLOCK 17, 19, 22, and 23 pistols. Right hand mount. Made in the US from US materials.

MAGCLIP

6.56 X 45
MAGAZINE
MAGAZINE
MAGAZINE
MAGAZINE
MAGAZINE

6.56 X 45

MAGCLIP™

FEATURES

1. Low-profile design mounts to MOLLE platforms and does not interfere with other mags when nested
2. Does not interfere with mag-well
3. Belt mount capable
4. Versatile design allows magazine to be easily concealed and/or clipped to a wide variety of surfaces for quick and easy access

DESIGN

The **MAGCLIP™** provides new options for carrying and using magazines. Ideal for applications where low visibility, rapid access, or additional capacity is needed.

Clip the magazine to any horizontal edge and grab when needed. The **MAGCLIP™** attaches directly to the magazine and remains on the magazine—no pouch necessary. Unique clip design allows many carry options: inside the waistband, on a belt, on MOLLE webbing, clipped inside a pack or case, inside a cummerbund, clipped to a vehicle door panel or under a seat.

While not intended to replace all magazine pouches, the **MAGCLIP™** is great for quick-access mags, adding mags wherever you have space, low-vis missions, or just throwing a few mags on a belt to hit the range without kitting up. Compatible with most 5.56 magazine types including GI mags, Magpul® PMAGS™ and EMAGS™ and HK® mags.

HEADBORNE SYSTEMS

AIRFRAME™ HELMET

FEATURES

- Revolutionary vented shell design for passive cooling
- Covers more of wearer's nape than traditional designs
- Modular ear and face protection available
- Modular ARC-Rail™ system available
- Contain 3/4" pads
- Can be pre-drilled at factory for 3-hole NVG mounts (configuration compatible with OpsCore and Wilcox 3-hole mounts)

DESIGN

The AIRFRAME™ ballistic helmet sets new standards in protection, comfort, and modularity. Complete AIRFRAME™ helmets weigh less than complete ACH 2002 helmets while providing more coverage area. The AIRFRAME™ was developed with a mandate to dramatically reduce headborne weight while exceeding common frag threats. A complete medium AIRFRAME™ helmet weighs only 2.30 lbs., and the large weighs a mere 2.55 lbs. The unique overlapping shell design of the AIRFRAME™ creates an integrated vent that provides passive cooling and can reduce the damaging effects of explosive blast waves. Each AIRFRAME™ helmet features an OpsCore® H-Nape Head-Loc™ retention system for unmatched stability, comfort, and ease of adjustment. Up armoring the AIRFRAME™ with ballistic ear or face protection is simple and fast (see our EARS™ and CHOPS™ for more info). All helmets and components are compatible with common ear pro systems like PELTORS® and SORDINS®. Made in the US from US materials.

COMING FALL 2014

AIRFRAME™ ATX HELMET

FEATURES

- Meets IIIA ballistic requirements (industry standard H.P. White test protocol)
- Revolutionary vented shell design for passive cooling
- Covers more of wearer's nape than traditional designs
- Modular ear and face protection available
- Modular ARC-Rail™ system available
- Contains 3/4" pads
- Can be pre-drilled at factory for 3-hole NVG mounts (configuration compatible with OpsCore® and Wilcox® 3-hole mounts)

DESIGN

The **AIRFRAME ATX™** is our law enforcement focused ballistic helmet—designed to offer the same advantages of our original **AIRFRAME™** helmet while meeting IIIA ballistic requirements (H.P. White test protocol). The unique overlapping shell design of the **AIRFRAME™** creates an integrated vent that provides passive cooling and can reduce the damaging effects of explosive blast waves. Each **AIRFRAME™** helmet features an OpsCore® H-Nape Head-Loc™ retention system for unmatched stability, comfort, and ease of adjustment. Up armoring the **AIRFRAME™** with ballistic ear or face protection is simple and fast (see our **EARS™** and **CHOPS™** for more info). AIRFRAME™ ATTACHMENTS

CHOPS™

FEATURES

- Allows proper sighting and firing of weapons
- Eliminates blind spots inherent to traditional face protection
- Able to be donned and doffed in seconds
- Compatible with NVGs and most standard tactical goggles
- Flexes to fit various face shapes
- Provides fragmentation and blast/flame protection

DESIGN

Easily attached and removed with one hand, the CHOPS™ offer mission-tailorable maxillofacial protection. The CHOPS™ provide simple lightweight ballistic protection that doesn't compromise communication, hydration, or situational awareness. Uses the same attachment system as the EARS™. One size fits all AIRFRAME™ helmets.

RAILS™

DESIGN

Based on the Ops-Core® ARC Rail™ Architecture, this system allows any number of accessories to be mounted to the helmet. Includes an attachment for an oxygen mask, NVG retention bungee cords, and cable management tie-downs. The Ops-Core® ARC Rail™ system used under license from Ops-Core® Inc.

EARS™

DESIGN

Scalable and modular ear protection. Compatible with nearly all common ear-pro (Peltors/Sordinis). Uses same attachment system as the CHOPS™. One size fits all AIRFRAME™ helmets.

AIRFRAME™ ACCESSORIES

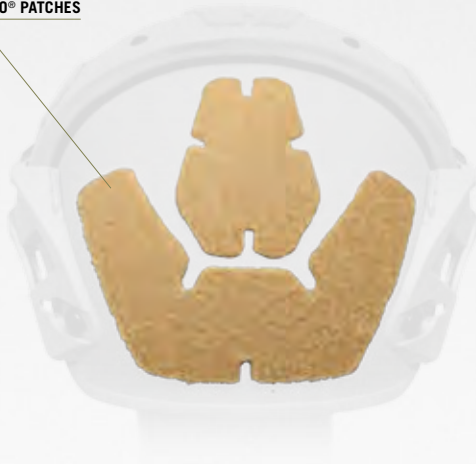

STOCKPAD™

PELTOR™ RAIL ADAPTER

AIRFRAME™ VELCRO® PATCHES

STOCKPAD™

The **STOCKPAD™** creates a high-friction interface between **CHOPS™** and rifle stock, providing greater stability while sighting. Each pack contains one adhesive-backed **STOCKPAD™** and alcohol wipe for cleaning surface area before application. Left or right side available. Only available in black. Made in the US from US materials.

PELTOR™ RAIL ADAPTER

Allows the 3M™ **PELTOR™** ARC Adapters to fit with our **AIRFRAME™** RAILS™. These adapters also maintain compatibility with existing ARC rail geometry, and can be used interchangeably. Simple installation replaces the original mounting hardware, allowing **PELTOR™** ear protection to be used with the **AIRFRAME™** helmet. Only available in black. Sold as a pair. Made in the US from US materials.

AIRFRAME™ VELCRO PATCHES COMING SPRING 2014

Here's a simple and clean way to attach strobes, battery packs, LEDs, propellers, whatever you want... Custom shapes lay flat and look way better than trying a DIY Velcro® job on your helmet. Made in the US from US materials.

MLI™ CAP

Based on the design of our other caps, this version features an embroidered MLI™ logo on the front. Made in the US from US materials.

MLI™ CHROME EMBLEM

Chrome MLI™ emblems ideal for trucks and tanks.

MLI™ STICKER

These high quality glossy stickers look good on almost anything. Available in two sizes.

MLI™ MUG

A fun holiday gift for that useless hippie uncle we all have. Mug imported, printed in the US.

MADE IN BROOKLYN NYC

OUR COMMITMENT TO AMERICAN MANUFACTURING

We believe in America and we take pride in doing things the right way. This is why we are committed to American manufacturing. We believe a country that forgets how great things are made soon forgets the things that made it great.

We are headquartered in the historic Brooklyn Navy Yard in New York City. This is the same yard that launched some of America's most important warships, from the USS Ohio in 1820 to the USS Missouri in 1944, on whose decks WWII was officially ended September 2, 1945. We take pride in continuing the Yard's multi-century legacy of building the best for our fighting men and women. We work very hard to produce the best tools available and we do so right here in the heart of America's most celebrated city.

We're growing every year and continually reinvesting in our personnel, our facilities and our processes to help fortify and expand our manufacturing base. We owe our success to our team and to our customers—people who share a deep appreciation for the value of an authentic, innovative product. While we may only be a small portion of the US economy, we're confident the positive ripple effect of supporting domestic manufacturing extends far beyond us. By making our products with the level of care and craftsmanship that can only be achieved by keeping it close, we're doing our part to build and maintain a knowledge base that might otherwise be lost. This is all part of doing things the right way. As long as our customers continue to demand innovative and high-quality domestic manufactured products we'll continue the effort to provide the best gear available—all made right here in America.

BODY ARMOR

It is against Federal Law for a person convicted of a violent felony to purchase or possess body armor. In addition, various states also have laws restricting the purchase or possession of body armor by persons convicted of certain felonies, other crimes of violence, or drug crimes. By purchasing body armor, you acknowledge and certify that (I) you have no felony convictions, (II) you have not been convicted of any other crime that would restrict your ability to purchase or possess body armor under any Federal or State law, (III) you do not intend to use the body armor for any criminal purpose and (IV) you are over 18 years old. Crye Precision reserves the right, in its sole discretion, to refuse to sell body armor to any person. Additionally, the sale of body armor to residents of Connecticut is restricted to in-person sales, unless the sale is made to certain law enforcement or military personnel. We require that all orders of body armor be accompanied by a government issued photo identification.

ACCURACY

We try very hard to keep the information in our catalogs as accurate and up to date as possible. However, errors may occur that may sometimes result in inaccurate information being displayed. This includes, but is not limited to: product description, images, sizing information, and availability. Additionally, we are constantly updating products based on user feedback from an evolving battlefield. Some product features may vary from what is displayed in the catalog. This catalog is meant to serve as a useful guide and commerce tool. Crye Precision is not responsible for any errors or discrepancies. Item designs are subject to change.

ABOUT US

Crye Precision designs and manufactures truly innovative equipment for America's fighting forces. We are proud and honored to serve our customers' needs. We spend as much time as we can with users, continuously incorporating their experience and feedback into the gear. We give them our full support and are indebted to them for their service and their sacrifice. We make uncompromising gear for uncompromising individuals. We work hard to provide smart, high-performance, long-wearing gear for people who demand the best. We make all of our gear in America from American materials. Every item is designed to help you perform better.

WARRANTY

If a defect in materials or workmanship is found in any of our products, we will repair or replace it, free of charge, for the lifetime of the product. This excludes normal wear and tear. Be aware that the customer is responsible for any and all return shipping charges. This applies to the original purchaser and is nontransferable.
