

CAMMENGA®

DESTINATE MODEL D3-T TRITIUM PROTRACTOR COMPASS

Exclusive Manufacturer of the Official
United States Military Lensatic Compass

The Cammenga Destinate Model D3-T Tritium Protractor Compass incorporates all the same high quality parts and materials that are in the Model 3H Tritium Lensatic Compass, the Official U.S. Military Compass. It is built to the demanding specifications of all Cammenga compasses. The D3-T is built to the same demanding specifications and quality of all Cammenga compasses. Battle tested through rigorous shock, water, sand proof, and functional from -50° F to $+150^{\circ}$ F.

Six Tritium Micro Lights allow for navigation in low-light conditions, without the need for a flashlight or any other light source. Tritium Micro Lights remain luminous for over twelve years, maintenance-free.

The D3-T is equipped with a map magnifying lens, dial graduations in both degrees and mils, and three map scales for navigation on a variety of maps. The Copper Induction Damping System slows the rotation of the magnet without the use of liquids. Built to last with a nylon baseplate and waterproof housing.

MADE IN THE USA  **NSN: 6605-01-625-2819**

Luminosity: Tritium
Jewel Bearing: Sapphire
Rotating Bezel: Bi-Directional
Optics: Map & Dial Magnifiers
Climate Capacity: -50° F to $+150^{\circ}$
Baseplate Materials: Transparent Nylon
Waterproof: Yes
Expected Luminous Life: 10 Years
Accuracy: $\pm .04$ Mils
Dial Readings: Degrees & Mils
Damping Process: Induction (No Liquid Req.)
Scales: 1:25k, 1:63.36k, 1:50km
Lanyard: Included
Body: High-Impact Plastic
Dimensions: 4.75" x 2.5" x 0.71"
Warranty: Included, 1 Year
