## WHY

### Q™ IS THE FUTURE.

---

We aren't here to compete, we are here to change the world.

The Q team brings decades of experience to the table. We focus on every aspect of product design, development, and production. The combination of innovative engineering, the highest quality materials, and next-gen manufacturing cuts no corners and creates the best possible products for every end user.

We want to tackle engineering challenges, fill specific niches, and build products that we are passionate about.

If you want cookie cutter, you've come to the wrong place.

## ROOTS

Headquartered in Portsmouth, New Hampshire, the Live Free or Die state, Q was built on the foundation of doing what is best for both our customers and employees.

Silencer pioneer and Q CEO, Kevin Brittingham, handpicked a world class team with combined decades of firsthand experience. They share a common goal to change the world through science, engineering, and to **DO THE UNPOSSIBLE™**.

## THE FIX™ BY Q

### DOING THE UNPOSSIBLE™

The Fix™ by Q is the new standard for bolt action rifles. We started from the ground up.

With feedback from some of the best precision shooters in the world and forward thinking engineering, we developed a unibody design, complete with a one-of-a-kind action. We've eliminated the traditional bulky chassis, and created a light weight, modular rifle, in a package that is more versatile than anything else on the market.

### ERGONOMICS

Designed with comfortable and familiar AR controls.

### WEIGHT

5lbs 9 oz. without accessories.  
(16 in. Barrel, 7.62x51mm)

### TRIGGER

A factory bolt action trigger that is light, crisp, and most importantly – safe.

### BARREL

Bartlein barrel / Tooley match chambered.

### SPEED OF OPERATION

The first production forty-five-degree bolt throw, makes it the shortest and fastest on the market.

### STOCK

Fully-Adjustable folding stock.

### CALIBER(S)

- 7.62 x 51mm (16")
- 6.5 CREEDMOOR (20")
- 338 FEDERAL
- 300 WSM

## THE FIX™ BY Q

The Fix™ by Q is the foundation of what our company believes in. Science and experience coupled with passion and drive, our team set out to do the impossible™.

We identified a gap in the market, set goals to successfully reinvent the traditional design, and developed a product far superior to the industries conventional bolt action rifle.

M2010

The M2010 represents the pinnacle of what a chassis bolt gun can be- flexible, modular, accurate, and adjustable. Unfortunately, all these benefits come at the expense of size, weight, and well... expense.

The Fix accomplishes all of these goals in a platform that is lighter, shorter, faster, more reliable, more versatile, more comfortable, and more accurate.

## HONEY BADGER™ BY Q

The original Honey Badger was developed at AAC by previous owner and Q CEO, Kevin Brittingham and his R&D Team. An elite special operations group reached out looking to replace their MP5-SD's with an upgraded platform. Requirements included the ability to shoot a rifle caliber round while maintaining low visibility and excellent signature suppression. Developed in conjunction with 300 AAC Blackout, the Honey Badger was born, exceeded expectations, but never made it to the commercial market.

### WEIGHT

5 LBS. 4 OZ. WITH SILENCER

### CALIBER

300 AAC BLACKOUT

### BARREL LENGTH

7 IN.

THE SUBMACHINEGUN'S REPLACEMENT.  
NOW SHIPPING.

### FINISHING THE JOB.

At first glance, The Honey Badger™ by Q appears to be the same as the original.

Q focused on taking the iconic 'Badger to the next level and improved upon every technical aspect of the first-generation design. From the gas system to the trigger, and telescoping stock – HB 2.0 does not disappoint. And this one will make it to your dealer.

# HONEY BADGER™ BY Q

INTRODUCING THE PERSONAL OFFENSIVE WEAPON

## REDEFINING THE SUBMACHINEGUN

The Honey Badger™ is not another AR. It was designed to fit the traditional submachinegun role while bringing revolutionary flexibility, improved ergonomics, increased reliability, power, and performance.

HK MP5-SD

Developed almost 60 years ago, the HK MP5 has been the standard submachinegun of military and law enforcement. When compared to the Honey Badger™, there simply is no comparison.

The HB is lighter, shorter, quieter, more reliable, more powerful, more versatile, more comfortable, and more accurate.

# “DON’T SUCK”

## KEN BRITTINGHAM

Father of Kevin, and iron fist.

He's worked a hard blue-collar life and knows how to get things done, and keep the team at Q in line.

When he is not busy with his T-Shirt modeling career, Ken enjoys long walks on the beach, cold Miller Lite, and of course - the ladies.

Ken will be heading up customer service part-time.

He can be reached at:

## SILENCERS BY Q

Silencers by Q represent the latest development in a long line of silencer evolution. The R&D team is comprised of talent that developed both Advanced Armament Corp. and Sig Sauer's silencer product lines.

From day one, Q set out to build the best products suitable for all users, be it the everyday hunter or military.

Q uses science to develop a far superior product to anything else available. We focus on identifying new and unique ways to deliver the strongest, quietest, most accurate, and advanced silencers in the world.

**SILENCERS** BY Q

### **SIGNATURE REDUCTION**

Enhance your overall shooting experience and protect your hearing and the hearing of those nearby.

### **DURABILITY**

Using science and continued refinements to welding processes, Q delivers a longer lasting product.

### **WEIGHT**

Engineering, material selection, and manufacturing processes are all developed with a simple truth in mind—the RIGHT weight is lightweight.

### **POINT OF IMPACT SHIFT**

Attaching a silencer to your firearm adds length and weight to the barrel which can introduce point-of-impact shift. Q silencers' precision design and manufacture combined with their light weight minimizes or eliminates that shift.

### **RETENTION**

Q's latest-generation taper design is the key to creating a precise, secure, and repeatable connection between silencer and firearm.

### STRENGTH

Inconel 718 and Grade 5 Titanium arranged in an integrated spacer/baffle design and assembled via the latest full-circumferential robotic welding.

### VOLUME

Tubeless design allows space for more internal volume, maximizing performance and reducing sound signature.

### ACCURACY

Wire Electrical Discharge Machining (EDM) creates a perfectly-aligned bore for the bullet to pass through. Combined with the silencers' light weight and precision mounts, this results in minimal point-of-impact shift.

## RIMFIRE / SILENCERS BY Q

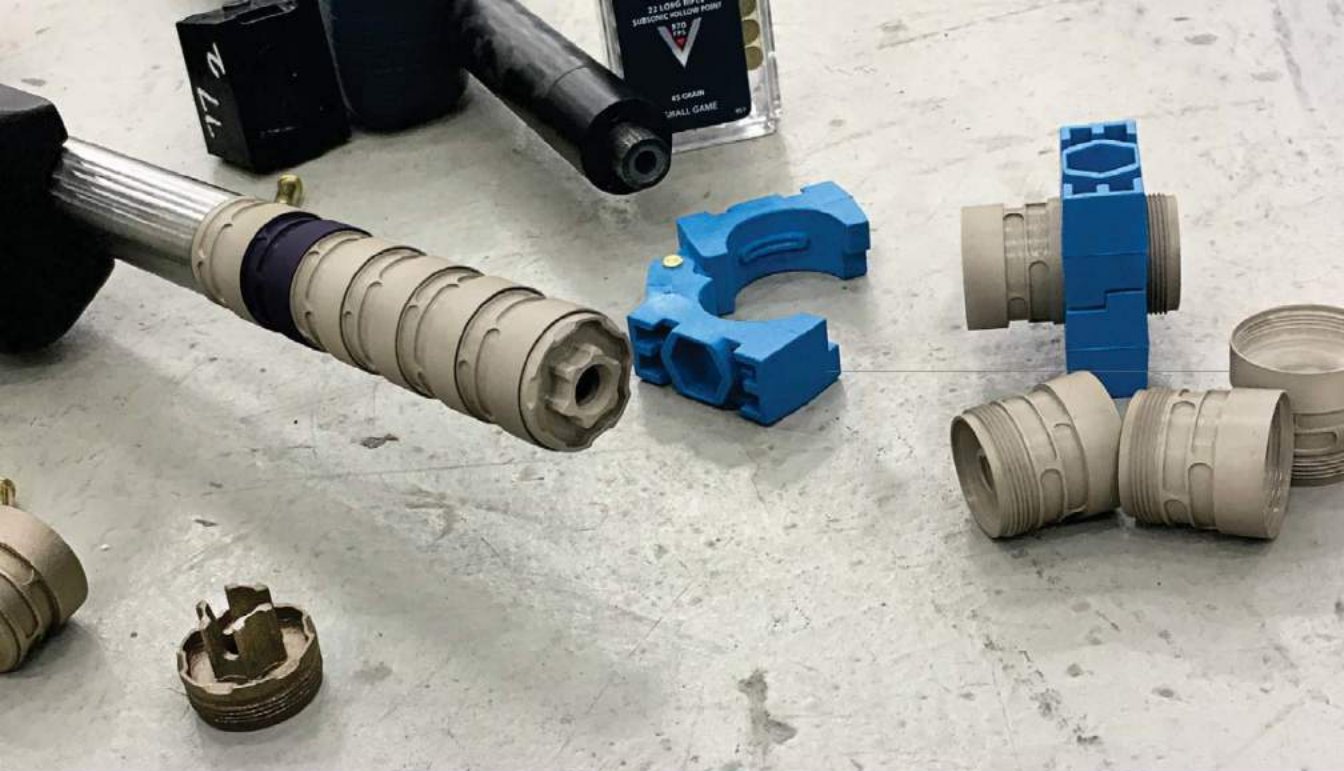

### EL CAMINO™

Designed to deliver market-leading accuracy and suppression, the El Camino is the perfect rimfire silencer for rodent reduction or backyard target practice. The silencer's endcap can be removed with a standard 1/2 inch socket, no special tool(s) required, allowing for quick and easy disassembly for cleaning.

**EL CAMINO™ by Q**  
is for use with:

- 22 LR
- 17HMR
- 5.7 x 28mm

## RIMFIRE / SILENCERS BY Q

**MODULARITY.**

**WE'RE NOT JUST SAYING IT, WE ARE DOING IT.**

### ERECTOR™

The ERECTOR by Q is the first of its kind. Suitable for use on both pistols and rifles, you can run it fully assembled with all 10 baffles for maximum sound reduction or easily remove baffles to find your perfect balance of size and sound performance.

## HOW TO BUY A SILENCER

Q proudly supports the silencer movement and those working to make the purchasing process of those and other NFA items to be more streamlined for the firearms community.

Visit [www.silencershop.com](http://www.silencershop.com) to purchase Silencers by Q™.

## BUYING A SILENCER (or other NFA item) AFTER JULY 13, 2016

### 1. FIND THE SILENCER FOR YOU

Take your time picking the right silencer for your needs

### 2. GET YOUR REGISTRATION CODE

After your purchase, you'll receive your serial number(s) and a registration code

### 3. LOCATE THE NEAREST KIOSK

Find the closest Silencer Shop Kiosk at [silencershop.com/dealerlocator](http://silencershop.com/dealerlocator)

### 4. FOLLOW KIOSK INSTRUCTIONS

Register your NFA items

### 5. DOWNLOAD MOBILE APP

Snap a picture

### 6. RECEIVE CONFIRMATION

Keep an eye on your account, a confirmation email/text will be sent
