

E2L OUTDOORMAN

DUAL-OUTPUT LED FLASHLIGHT

Model Number: E2L-A

UPC Number: 084871321266

MSRP: \$255.00

The compact E2L, a member of SureFire's Outdoorsman family of flashlights with outputs and runtimes optimized for use outdoors, features two useful output levels and a versatile beam that make it an outstanding everyday-carry light. Its virtually indestructible LED, powered by two 123A lithium batteries and controlled by an ergonomic click-type tailcap switch, generates 125 lumens of light on its high setting and 5 lumens of extended-runtime light on its low setting. A Total Internal Reflection (TIR) lens gathers nearly all of the virtually indestructible LED's light and projects it forward, creating a tight beam with enough surround light to accommodate peripheral vision. A rugged aluminum body anodized with a durable Mil-Spec finish, along with O-ring seals, keep the elements at bay and the E2L Outdoorsman running smoothly in the cold, heat, rain, or snow.

FEATURES & BENEFITS

- Virtually indestructible LED regulated to maximize output and runtime
- Two output levels—high for maximum light, low for extended runtime
- TIR lens produces tight beam with enough surround light for peripheral vision
- High-strength aerospace aluminum body, Mil-Spec anodized for extreme durability
- Coated, tempered window resists impact and thermal shock, maximizes light transmission
- Dual-output tailcap click switch—press for momentary-on low, click for constant-on low; return to then press or click again for high
- Includes high-energy 123A batteries with 10-year shelf life
- Backed by SureFire's No-Hassle Promise
