Action

Tactical

MULTIPLE KIT OPTIONS, INCLUDING:

- All-team video share
- Leader-only viewing
- Complete customization to suit customer requirements for cameras, communications, smart devices, and system SWAP
- Bundle with other tactical camera systems

CAMERA-TO-SCREEN COMMUNICATION USES WI-FI, CELLULAR OR MOST TACTICAL RADIOS

- Minimal additional equipment burden to the operator by leveraging existing (and emerging) warfighter equipment to share information and improve squad situational awareness
- Use COTS (e.g. GoPro or Sony) cameras with standard smart phones and tablets
- Connect multiple cameras and smart devices at once
- Compatible with standard video streaming apps on any smart device
- Simple screen swipe or tap to change views with Kopis NTtv App
- Learn how to use NTtv in less than 5 minutes

MULTIPLE USES:

- **Dismounted** squad-level real-time perspective sharing
- **Vehicle** 360° overwatch system
- **Perimeter surveillance** for a safe house, Forward Operating Base or Combat Outpost
- **Low-profile** OCONUS deployments
