**"TAKING THE PERFORMANCE OF
COMPACT REFLEX SIGHTS..
TO AN ENTIRELY NEW LEVEL"**

The all new Micro T-2 redefines everything you thought you knew about compact red dot sights. Instead of merely making improvements to an existing product, we started with a completely new design. Inside the completely new sight housing are advanced optical lenses that takes optical performance to a new level. Cutting edge lens coatings radically improve the shape and clarity of the 2 MOA red dot – especially when used with an accessory magnifier. Compare the Micro T-2 to any other compact optic. The competition doesn't even come close.

Built to offer the same battle proven ruggedness as other Aimpoint products, the Micro T-2 is able to perform under extreme conditions while remaining user friendly.

Professional end users asked, and we listened.

The Micro T-2 now offers front and transparent rear protective flip-covers. Physical protection has been added around the sight's adjustment turrets, and internal changes to protect the sight's electronic components. The sealed tube design means that no snow, rain, dust, mud, or sand will ever disrupt the operation of your sight, or ever get between you and your target.

No matter the mission, the size and weight of the soldier equipment is a critical factor. With the Micro T-2, Aimpoint offers an aiming device that provides the performance and user friendliness of its full-sized sights in the smallest package possible.

**"COMBAT TESTED AND SOLDIER
PROVEN. DON'T SETTLE FOR..
ANYTHING LESS"**

The Micro T-2 can be mounted on nearly any individual weapon platform, as it comes with an integrated mount that suits Picatinny and Weaver rails.. This sight is compatible with all generations of night vision devices.

The Micro T-2 is ideal for use with Aimpoint's wide range of accessories including the 3X Magnifier, and Concealed Engagement Unit (CEU). The Micro T-2 can operate for up to five years of constant-on use, using just one CR-2032 battery, and is waterproof to 25 meters.

**"FEATURES AND BENEFITS
NORMALLY FOUND ONLY ON..
FULL-SIZED OPTICS"**

Built to offer the same battle proven ruggedness as other Aimpoint products, the Micro T-2 is able to perform under extreme conditions while remaining user friendly.

UNIQUE FEATURES

- Advanced optical lenses for even better light transmission.
- Front Flip-up lens cover is included.
- Transparent rear Flip-up lens cover is included.
- Reinforced protection of the turrets for even greater ruggedness.
- Ideal for rifles, carbines, shotguns, submachine guns and handguns.
- 1X (non-magnifying) parallax free optic.
- Compatible with all generations of Night Vision Devices (NVD).
- 1 Off position, 4 night vision compatible settings and 8 daylight settings of which one extra bright for use with laser protection glasses or in bright desert sunlight.
- Integral Picatinny-style mount allows easy attachment to any rail.
- ACET technology allows 50,000 hours (over 5 years) of constant operation from one battery.
- Available in 2 MOA dot size.
- Submersible to 25 meters (80 feet).
- Use as a standalone sight or "piggybacked" on larger magnifying, thermal, or night vision optics.

MOUNTS & ACCESSORIES

Aimpoint's Micro T-2 sight is both rugged and versatile. With numerous mounting options it can be deployed on nearly every weapon in your armory.

Mounts

- Micro LRP mount is a lever release Picatinny mount. Returns to zero after dismounting.
- Mount adapter for mounting the Micro sight on magnifying scopes. Available in two versions for 30 mm and 34 mm tubes.

Spacers

- Aimpoint offers two spacers which raise the height of optical axis to 30 mm and 39 mm. They increase the mounting options across the different weapon platforms.

System of System's

- Compatible with Aimpoint® 3XMag.
- Compatible with Aimpoint® CEU.

Accessories

- Transparent front Flip-up lens cover.

Battery

- CR 2032 Lithium battery.
