ONE-SHOT PACKAGE FDAC

The Modular One Shot Package FDAC includes the following mission-essential gear at a reduced price!

- 1-U.S. Tactical Supply Modular Sniper Data Book & 6 Ring Binder, with tabs.
- 1-308 FDAC (Field Density Altitude Compensator)
- 1-300WM & 338LM FDAC (Field Density Altitude Compensator)
- 1-Data Book Cover, Multicam
- 1-Tactical All-Weather Pen
- Custom USTS Sniper Template

The The Field Density Altitude Compensator (FDAC) computes a firing solution so you hit your target in a fraction of the time needed to operate any ballistic computer in a field environment! Features:

- Trajectory and windage solutions equal to modern ballistic computers
- Non-tech! No batteries, extremely durable, incredibly small and lightweight
- Firing solutions for a wide range of density attitude (-3,000' to +10,000')
- Extremely accurate density altitude calculation table
- All firing solutions are based on the modern G7 drag model
- User adjustable muzzle velocity
- Marked sound barrier crossing for extreme range targets
- Designed for use with all MOA and MRAD adjusting optics

MODULAR SNIPER DATA BOOK: NSN 1220-01-547-1801
MODULAR ONE-SHOT PACKAGE: NSN 7610-01-599-2528

USTS SHOT-MOD MIL FDAC

SUPCOV: SUPPRESSOR COVERS

The "SUPCOV" protects you, the suppressor, and your equipment. It is also designed to help prevent mirage from obscuring your site picture after multiple shots. See test results below!

TEST PARAMETERS:

- 1 x M110 Sniper Rifle fired 1 round every 2-3 seconds with no SUPCOV.
- 1 x M110 Sniper Rifle fired 1 round every 2-3 seconds with a SUPCOV.
- Both weapons continued with this rate of fire until barrel mirage was too great to accurately engage targets.
- Both weapons engaged the same target at approximately 467 meters.

RESULTS:

- M110 with no SUPCOV began to have significant barrel mirage at 21 rounds; shooter was unable to engage targets and be able to identify what he was engaging after 25 rounds.
- **M110 with the SUPCOV did not have any significant barrel mirage until 91 rounds;** shooter was able to engage targets for another 3 rounds until he was unable to identify targets.

BWR 9.5 5.56 / 7.62 Suppressor Cover 9.5" (Black or Coyote Brown)
BWR 14.5CB M110 SASS Suppressor Cover 14.5" (Coyote Brown)
BWR 1.75LCB 2010 & PSR Titan Suppressor Cover (Coyote Brown)

HOG SADDLE & PIG SADDLE TRIPOD KITS

HOG Saddle Tripod Kits:

- **Kit H-05:** HOG Saddle & BMF 190 Aluminum Tripod \$502.54
- **Kit H-03:** HOG Saddle, BMF 190 Aluminum Tripod & 322 Grip Head \$673.53
- **Kit H-01:** HOG Saddle, BMF 190 Aluminum Tripod & 54 Magnesium Ball Head \$692.53
- **Kit H-10:** HOG Saddle & BMF 055 Aluminum Tripod \$521.54
- **Kit H-09:** HOG Saddle, BMF 055 Aluminum Tripod & 322 Grip Head \$692.53
- **Kit H-08:** HOG Saddle, BMF 055 Aluminum Tripod & 54 Magnesium Ball Head \$711.53
- **Kit H-06:** HOG Saddle, BMF 055 Carbon Fiber Tripod \$749.54
- **Kit H-04:** HOG Saddle, BMF 055 Carbon Fiber Tripod & 322 Grip Head \$920.53
- **Kit H-02:** HOG Saddle, BMF 055 Carbon Fiber Tripod & 54 Magnesium Ball Head \$939.53

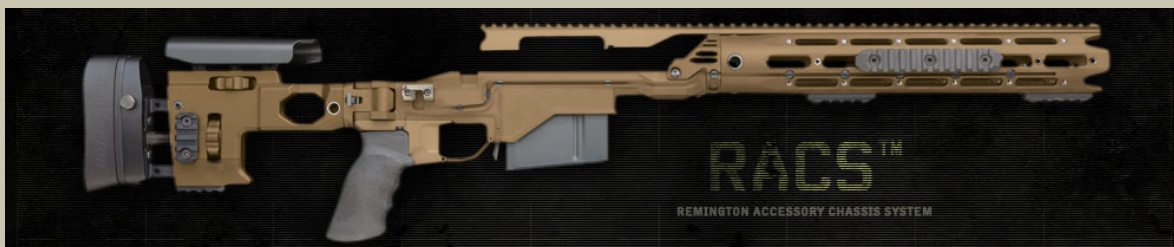

PIG Saddle Tripod Kits:

- **Kit P-05:** PIG Saddle & BMF 190 Aluminum Tripod \$354.99
- **Kit P-03:** PIG Saddle, BMF 190 Aluminum Tripod & 322 Grip Head \$534.98
- **Kit P-01:** PIG Saddle, BMF 190 Aluminum Tripod & 54 Magnesium Ball Head \$554.98
- **Kit P-10:** PIG Saddle & BMF 055 Aluminum Tripod \$374.99
- **Kit P-09:** PIG Saddle, BMF 055 Aluminum Tripod & 322 Grip Head \$554.98
- **Kit P-08:** PIG Saddle, BMF 055 Aluminum Tripod & 54 Magnesium Ball Head \$574.98
- **Kit P-06:** PIG Saddle & BMF 055 Carbon Fiber Tripod \$614.99
- **Kit P-04:** PIG Saddle, BMF 055 Carbon Fiber Tripod & 322 Grip Head \$794.98
- **Kit P-02:** PIG Saddle, BMF 055 Carbon Fiber Tripod & 54 Magnesium Ball Head \$814.98

REMINGTON ACCESSORY CHASSIS SYSTEMS (RACS)

- **U.S. Army Sniper Rifle M2010 Chassis System**
- **USSOCOM Precision Sniper Rifle Mk 21 Chassis System**
- **USMC Sniper Rifle M40A6 Chassis System**

Patent-pending Remington® Accessory Chassis System (RACS) incorporates state

of the art operator defined attributes – Octagonal free float tubular front handguard – Operator selectable rail sections for attaching clip-on night vision systems, lasers, bipods & other accessories. Fully Adjustable Folding butt stock to meet operator and mission requirements.

RACS-LW BUTTSTOCK

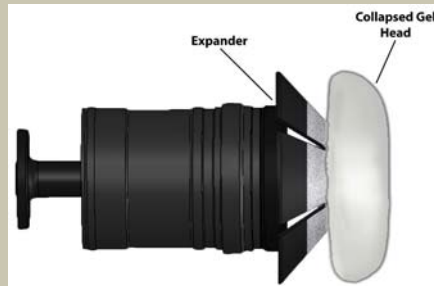

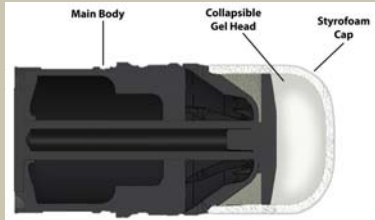

All of the RACS adaptability in an ultra-lightweight package.

- Fully adjustable for LOP, shoulder, comb height and cast.

- Quick, silent adjustments & Tool-free adjustment locking levers.
- Multiple flush-cup sling swivel Att.
- Removable accessory rails to accept additional sling points or monopod.

SECURITY DEVICES INTERNATIONAL'S 40MM LESS-LETHAL AMMUNITION

HECOE TESTED & AUTHORIZED PURCHASE
BY ALL U.S. DOD BRANCHES

- Tested as the 40MM safety standard
- Accurate at both short & long ranges (2-80 m)
- Works with all existing 40MM launchers
- Patented, collapsible head technology
- Internal energy absorption system
- Consistent in-flight stability throughout an almost flat trajectory

BIP – Blunt Impact Projectile

Most of the 40mm non-lethal weapon technologies on the market today, have a range of 20 meters to 50 meters. The BIP has an effective operational range of 2 meters to 80 meters. We believe that the cushioning mechanism built into the BIP allows the BIP to be used in close range situations. We also believe the aerodynamic characteristics of the BIP allow it to be used with greater accuracy over longer distances.

AAMI LESS THAN LETHAL MULTI-SHOT GRENADE LAUNCHER

Where Accuracy and Multi Round Follow up Shots are needed
the AAMI Less Than Lethal MSGL Delivers!

**CONTACT US
FOR PRICING &
AVAILABILITY!**

6 rounds of OC, Blunt Force Impact, Marking or the new Malorderant 40MM rounds are instantly available to handle large crowds or accurately engage a single target.

The Less Than Lethal (LTL) MSGL in 40mm and 37/38mm calibers is designed for use by state and federal police and law enforcement, as well as military for peace-keeping mission abroad.

RAPTAR-ES: RAPID TARGETING MODULE

Overview:

- Remote Control Pad allows operator to activate selected laser and to range and engage targets.
- A Laser/Input Button allows the operator to lase the target in IR or VIS mode
- A mode selection knob allows the user to select from eight possible modes of operation: Off, IR Laser, IR Flood, IR Dual, Function, VIS Laser, VIS Flash, and VIS Dual.

- Focus Wheel allows the operator to change the IR illuminator from flood to spot.
- RAPTAR-ES™ is comparable in size to the AN/PEQ-15 with only a slight increase in weight but with the additional feature of a Laser Range Finder.

Features:

- Laser Range Finder Identifies Target Distance
- Infrared Aiming Laser
- Red Visible Aiming Laser
- Precision Windage and Elevation Adjustors Control the Entire Laser Suite as One Within .5 MRAD

FIELD DENSITY ALTITUDE COMPENSATOR (FDAC)

Available in 308 175gr METERS & 300WM
190 220/338LM 250 300 Models

- Calculates firing solutions in 0.1 MRAD increments from 100-1500 meters.
- Compensates for elevation, windage, moving target leads, firing angle, and spin drift.
- User adjustable Density Altitude from -2,000' to +16,000'.
- Marked sonic barrier crossing, specific to the user's selected density altitude.
- Uses the modern G7 drag model for all firing solutions and Brian Litz's extensively tested G7 ballistic coefficients.

SCOUT SNIPER PERISCOPE KIT

NSN: 1240-01-571-5004

Kit comes with:

- Anodized aluminum tripod mount handle with 1/4 20 threads
- Desert camo SwatScope 3M Camoclad Wrap Kit
- Aluminum hard case
- Belt hook
- PVS-14 Adapter
- Flashlight attachment
- Soft sling case

ANGLE COSINE INDICATOR KITS

U.S. ARMY: NSN 1005-01-560-0130 ACI KIT 30mm
 USMC 7.62: NSN 1005-01-584-5395 ACI KIT 34mm 7.62
 USMC .50 M107: NSN 1005-01-584-5402 ACI KIT 34MM .50 Cal

Designed to Increase Lethality and Accuracy for shooters in Mountainous terrain or MOUT / Urban environments, the ACI Kit works on any shoulder-mounted weapon system.

NEW ACI with ANTI-CANT!

The new ACL-A1 has an anti-cant device incorporated into it. Opened with a flip of your thumb, the mechanical anti-cant device is displayed in full view. This device is not a spirit bubble level. There is no glass vial to break and no liquid to leak out or freeze from cold weather temperatures. The ACL-A1 is impervious to the elements, completely mechanical, rugged and ACCURATE!

FULL SPECTRUM SOLUTIONS SHOOTING MAT

Designed and developed from the ground up with multiple years of real world operations and training.

- Adjustable Bipod loops, allowing the shooter to adjust the overall length for various weapon systems and are also removable via side release buckle if not in use or needed.
- Clear, modular water resistant DOPE holders.
- Very light Weight and Compact, with closed cell foam padding. Rolls up and easily attaches to any MOLLE compatible system.
- Dimensions: Open 29" x 48"; Rolled Up 5" x 5" x 14".

BADGER ORDNANCE

Badger Ordnance is the top manufacturer of Superior Scope Mounting Equipment, Night Vision Integration & Weapon Accessories for the US Military, Spec Ops Community, Government and Law Enforcement Agencies.

On GSA Contract GS-07F-0259N

LAW TACTICAL AR FOLDER

The first and only folding stock adapter compatible with AR platform rifles.

The Law Tactical Folding Stock Adapter works with direct impingement or gas piston systems and fits any A2, carbine, mil spec or commercial buffer tube and stock. It can be used with standard bolt carrier groups including: full auto, semi auto, 5.56 to .308!
