**TACTICAL
SOCKS**

**IT'S WHAT'S
UNDERNEATH THAT
COUNTS**

WE'VE GOT YOUR 6

Our military and first responders protect our country 24/7. It's our job to help protect them.

Point6 socks keep your feet comfortable and dry in even the most extreme conditions so that you can concentrate on your mission and get home safe. We build a line of merino wool socks that are as tough and durable as the men and women who wear them.

DESIGNED WITH YOUR MISSION IN MIND

The best socks require the best materials and ergonomic design. All of our designs are constructed with the finest merino wool.

Every sock is crafted for a specific purpose and mission but all feature deep heel pockets, seamless toes, ankle and arch support and exceptional cross stretch for all day comfort.

What is compact spun merino wool and how is it better?

Compact spinning process involves the use of negative pressure in the middle of the yarn as it is being spun. The vacuum action in compact spinning draws the loose fibers to the inside of the yarn, where they are contained. The longer, smoother surface of compact spun yarn is exceptionally soft, less bulky and 25% more durable than traditional ring spun yarns.

COMPACT SPUN

25% more durable • exceptionally soft • less bulky

RING SPUN

weaker • increased pilling • increased wool loss • bulky

OUR HERITAGE

Point6's founders, Peter and Patty Duke, have been at the cutting edge of merino wool apparel development having introduced merino wool technology to sock construction over 20 years ago. We continue to pioneer new and better construction techniques and materials including compact spun yarns and are constructed on the finest knitting machines available.

OUR 6 POINTS OF SEPARATION

1. MORE DURABLE: Second to none in rugged durability even when worn for extended days on end without care or washing.

2. DRYER FEET: Merino wool is legendary for it's moisture management capabilities.

3. PREVENTS BLISTERS:

Our ergonomic fit ensures your socks won't slip or slide.

4. MAINTAINS CORE BODY TEMPERATURE:

From the tundra to the tropics, our merino wool keeps your feet comfortable.

5. FLAME RESISTANT: Merino wool is naturally flame resistant, it won't burn or melt.

6. ELIMINATES ODOR: Merino wool is naturally anti-microbial, resists odor after multiple days use in the field.
