

CSAT SIGHT TOOL™

NSN 1005-01-650-8121

The patent pending CSAT Sight Tool™ made by Patriot Products AZ, LLC, proudly made in the USA, is revolutionary in its adaptability with the majority of the close combat and magnified optics currently in use by military, law enforcement, and citizen soldiers/civilians.

The CSAT Sight Tool™ has a 3/8" & 10mm box wrench that will work with LaRue Tactical and Aimpoint 3X Twist mounts, as well as a 1/2" open face wrench for Leupold, Badger Ordnance, Warne, and other 1/2" cross bolt mounts. It has the ability to adjust windage and elevation on Aimpoint, Inc CompM, M2, M3, M4 and Micro T-1 sights, EOTech sights, Trijicon ACOG RCO, MRO, & RMR sights, Leupold LCO & D-EVO and Deltapoints, as well as adjust the factory mounts for ACOGs, EOTechs, and Leupolds. The "punch" on the CSAT Sight Tool can be used to adjust elevation and windage on A1/A2, Troy, MBUS, and similar iron sights. The 1/4" Hexagon hole allows the CSAT Sight Tool™ to be used as a T-Handle wrench for Torx, Hex, and screwdriver bits. Fits in MagPul MIAD & MOE grips, BCM Gunfighter Grips, and TangoDown BattleGrips.

It is made from 316 Stainless Steel in the United States.

Finally, it is an emergency life saving device because it can open your favorite beverage when you are dying of thirst.
